

[11:00] == cburkett [466afb76@gateway/web/freenode/ip.70.106.251.118] has joined #openstack-ops-guide  
[11:00] \* med\_ pre-waves  
[11:00] <med\_> \o  
[11:01] <@Zucan> Hello  
[11:01] <mpmsimo> Hey  
[11:01] <cburkett> hi  
[11:02] <ShillaSaebi> hi everynoe  
[11:03] <pratap> morning  
[11:04] <ShillaSaebi> hows it going  
[11:04] <ShillaSaebi> roll call?  
[11:04] <@Zucan> \*raises hand\* Here!  
[11:05] <med\_> \o  
[11:05] <mpmsimo> Good morning  
[11:05] <pratap> morning  
[11:07] <ShillaSaebi> ok so i am imagining the agenda will be light today  
[11:08] <ShillaSaebi> sorry i am on another call at the moment so I'm going to try to multimeet  
[11:08] <ShillaSaebi> so lets start from the top  
[11:09] <ShillaSaebi> last week we discussed going through the ops guide and refreshing/update it  
[11:09] \* fifieldt waves  
[11:09] <ShillaSaebi> everyone get a chance to go through it  
[11:10] <@Zucan> I got about 25% through it.  
[11:10] <ShillaSaebi> mmhmmm :O  
[11:10] <pratap> not complete , still working on it :-(  
[11:10] <med\_> I got about 5% through it  
[11:10] <@Zucan> \*Whew\* Now I don't feel so bad :)  
[11:10] <cburkett> same here, just started  
[11:11] \* med\_ is also multi-meeting so don't expect much brainwidth herein.  
[11:12] <ShillaSaebi> ok  
[11:12] <ShillaSaebi> thats cool  
[11:12] <mpmsimo> I went through a few chapters, but I still have more to catch up on.  
[11:12] <ShillaSaebi> keep on reading  
[11:12] <ShillaSaebi> and I would say that as you see outdated info feel free to patch it up  
[11:12] <med\_> +1  
[11:13] <ShillaSaebi> i put in a couple of patches last week which went through  
[11:13] <ShillaSaebi> simple stuff, outdated links, old release names, old references  
[11:13] <ShillaSaebi> and here are the current open reviews we have:<https://review.openstack.org/#/q/status:open+project:openstack/operations-guide,n,z>  
[11:13] <ShillaSaebi> i need to go in and look at what failed the gate oops

[11:13] <@Zucan> Wonderful :)

[11:14] <ShillaSaebi> ill do that today

[11:16] <ShillaSaebi> and really i don't have any more info or updates to add

[11:16] <ShillaSaebi> unless anyone wants to bring anything up

[11:16] <ShillaSaebi> we have a short day today and a holiday weekend coming up for the US folks so I can imagine that there will be slow progress this and next week

[11:16] <med\_> NOTE TO SELF: Put a reminder on Wednesday to prep for Thursday meetings....

[11:16] <ShillaSaebi> lol

[11:16] <fifieldt> :SD

[11:17] <@Zucan> :)

[11:17] <ShillaSaebi> well I'm glad everyones happy!

[11:17] <mpmsimo> Any thing that we should note over the week to bring up for the next meeting? Besides mistakes or outdated information that we have read over?

[11:18] <ShillaSaebi> we can start with low hanging fruit

[11:18] <ShillaSaebi> but lets start putting bugs in too

[11:18] <cburkett> agreed

[11:18] <ShillaSaebi> and then reviewing the bugs that are actually there as well

[11:18] <ShillaSaebi> let me pull that link up

[11:18] <fifieldt> [https://bugs.launchpad.net/openstack-manuals/+bugs?field.tag=ops-guide?](https://bugs.launchpad.net/openstack-manuals/+bugs?field.tag=ops-guide)

[11:18] <cburkett> simple stuff we can just do, but for more "interesting" things file a bug

[11:18] <ShillaSaebi> yay thank you

[11:19] <ShillaSaebi> ok yes exactly file a bug if its a bigger issue, otherwise get in there and fix it

[11:19] <ShillaSaebi> we also discussed making it more maintainable so if you see stuff wrapped around "this feature will be available in X release" i would say revamp it

[11:19] <ShillaSaebi> make it more generic

[11:19] <mpmsimo> I have been reading the HTML docs, there is also a bug report feature in the top right corner. [http://docs.openstack.org/openstack-ops/content/openstack-ops\\_preface.html](http://docs.openstack.org/openstack-ops/content/openstack-ops_preface.html)

[11:20] <ShillaSaebi> yup mpmsimo that should go to the same place

[11:20] <mpmsimo> Okay cool.

[11:20] <ShillaSaebi> so we currently have 12 bugs reported against the ops guide, if u feel like it, grab one and tackle it

[11:21] <ShillaSaebi> we can always help each other out too if were unclear of where to start

[11:21] <med\_> so

[11:21] <med\_> ACTION: Review Bugs

[11:21] <med\_> ACTION: Review reviews

[11:21] <med\_> or something like that.  
[11:21] <ShillaSaebi> yeah and continue to read the ops guide  
[11:21] <med\_> ACTION: REVIEW OPS GUIDE AND CREATE MORE BUGS AND REVIEWS  
[11:22] <ShillaSaebi> give input on what the group thinks are some of the things we should work on  
[11:22] <@Zucan> Create more bugs... sounds funny :)  
[11:22] <med\_> +100  
[11:22] <ShillaSaebi> ill start noting this stuff on our wiki too  
[11:22] <ShillaSaebi> so its more transparent  
[11:22] <med\_> ACTION: Get meeting tracker in here.  
[11:22] <ShillaSaebi> yeah haha  
[11:22] <@Zucan> Yeah... I wonder if we can get the openstack bot in here?  
[11:22] <@Zucan> :)  
[11:23] <ShillaSaebi> sounds like a stretch  
[11:23] <@Zucan> Yeah, like, people won't like it :)(  
[11:23] <med\_> I think that's what I meant... but... couldn't recall its name.  
[11:23] <@Zucan> meetbot. I looked at the code.  
[11:23] <@Zucan> it is only a couple lines to make it happen, from what I can tell  
[11:23] <ShillaSaebi> what are u waiting for!  
[11:23] <ShillaSaebi> whats the hold up  
[11:23] <med\_> <snort>  
[11:24] <ShillaSaebi> jk Zucan is wearing many hats and has a full plate  
[11:24] <@Zucan> :) Ok! fifieldt, what are the odds that the community will allow us to do that?  
[11:24] <ShillaSaebi> i get it  
[11:24] <fifieldt> hi, sorry, reading up  
[11:24] <fifieldt> umm, "maybe"  
[11:24] <ShillaSaebi> hahaha  
[11:24] <ShillaSaebi> that sounds promising  
[11:24] <@Zucan> hah hah. Which is what I thought.  
[11:24] <fifieldt> they will probably ask about this vs the operators channel  
[11:24] <fifieldt> and the meeting channels  
[11:25] <ShillaSaebi> yeah that makes sense  
[11:25] <@Zucan> Yeah. We wanted this time slot, but all the channels are full.  
[11:25] <ShillaSaebi> and we accidentally screwed up the time the first time....  
[11:25] <@Zucan> Is there a reason why there are only 4 meeting channels? :)  
[11:25] <ShillaSaebi> so we created our own channel....  
[11:25] <med\_> i suspect in the logn run, we'd want this in a meeting channel  
[11:26] <ShillaSaebi> yeah i agree  
[11:26] <@Zucan> yeah.  
[11:26] <ShillaSaebi> we probably do want it in a meeting channel  
[11:26] <med\_> if all four are blocked at this time, Id propose meeting room 5 (or NEXT)

[11:26] <ShillaSaebi> eventually we will have to change the time to make it fit so it doesn't overlap with all the other meetings

[11:26] <@Zucan> heh heh :) #openstack-meeting++

[11:26] <ShillaSaebi> yeah or another meeting channel

[11:26] <ShillaSaebi> #openstack-meeting-vip

[11:26] <@Zucan> Oh there you go

[11:26] \* med\_ is probably missing one or two other meetings but you have to pick and choose

[11:27] <@Zucan> med\_ that seems to be common now adays.

[11:27] <@Zucan> iRC meetings just like summit ops sessions :)

[11:27] <ShillaSaebi> yeah

[11:27] <cburkett> definitely

[11:27] <ShillaSaebi> all you busy bees

[11:27] <ShillaSaebi> ok well then i think we can call it

[11:28] <ShillaSaebi> ill MANUALLY update the notes to the wiki and put in action items on the actual wiki page in bold

[11:28] <@Zucan> Alrighty then, see you all next week... for those celebrating a holiday this weekend, happy celebrating!

[11:28] <med\_> dnake shilla

[11:28] <fifieldt> :D

[11:28] <@Zucan> I will ask about the meeting channel on the ops list.

[11:28] <med\_> stupid question time: Does "shilla" sound like "Sheila" or something else?

[11:28] <ShillaSaebi> it sounds like Sheila

[11:28] <med\_> or perhaps "Shiya"

[11:28] <ShillaSaebi> with a funky spelling

[11:28] <med\_> cool.

[11:28] <@Zucan> But we call her "Shillz" around here :)

[11:29] <@Zucan> (jk)

[11:29] <ShillaSaebi> yeah most people who speak Spanish pronounce the ll as Y and call me Shya

[11:29] <ShillaSaebi> but yeah everyone at work calls me Sheilz

[11:29] <med\_> wfm.

[11:29] <ShillaSaebi> I'm fine with any of it (laid back person here)

[11:29] <med\_> win. cunextweek.

[11:29] <ShillaSaebi> sounds good see you guys next week and thank you!

[11:30] <@Zucan> bye!

[11:30] <cburkett> see ya
