

Multiple pools per backend

# Multiple pools per backend

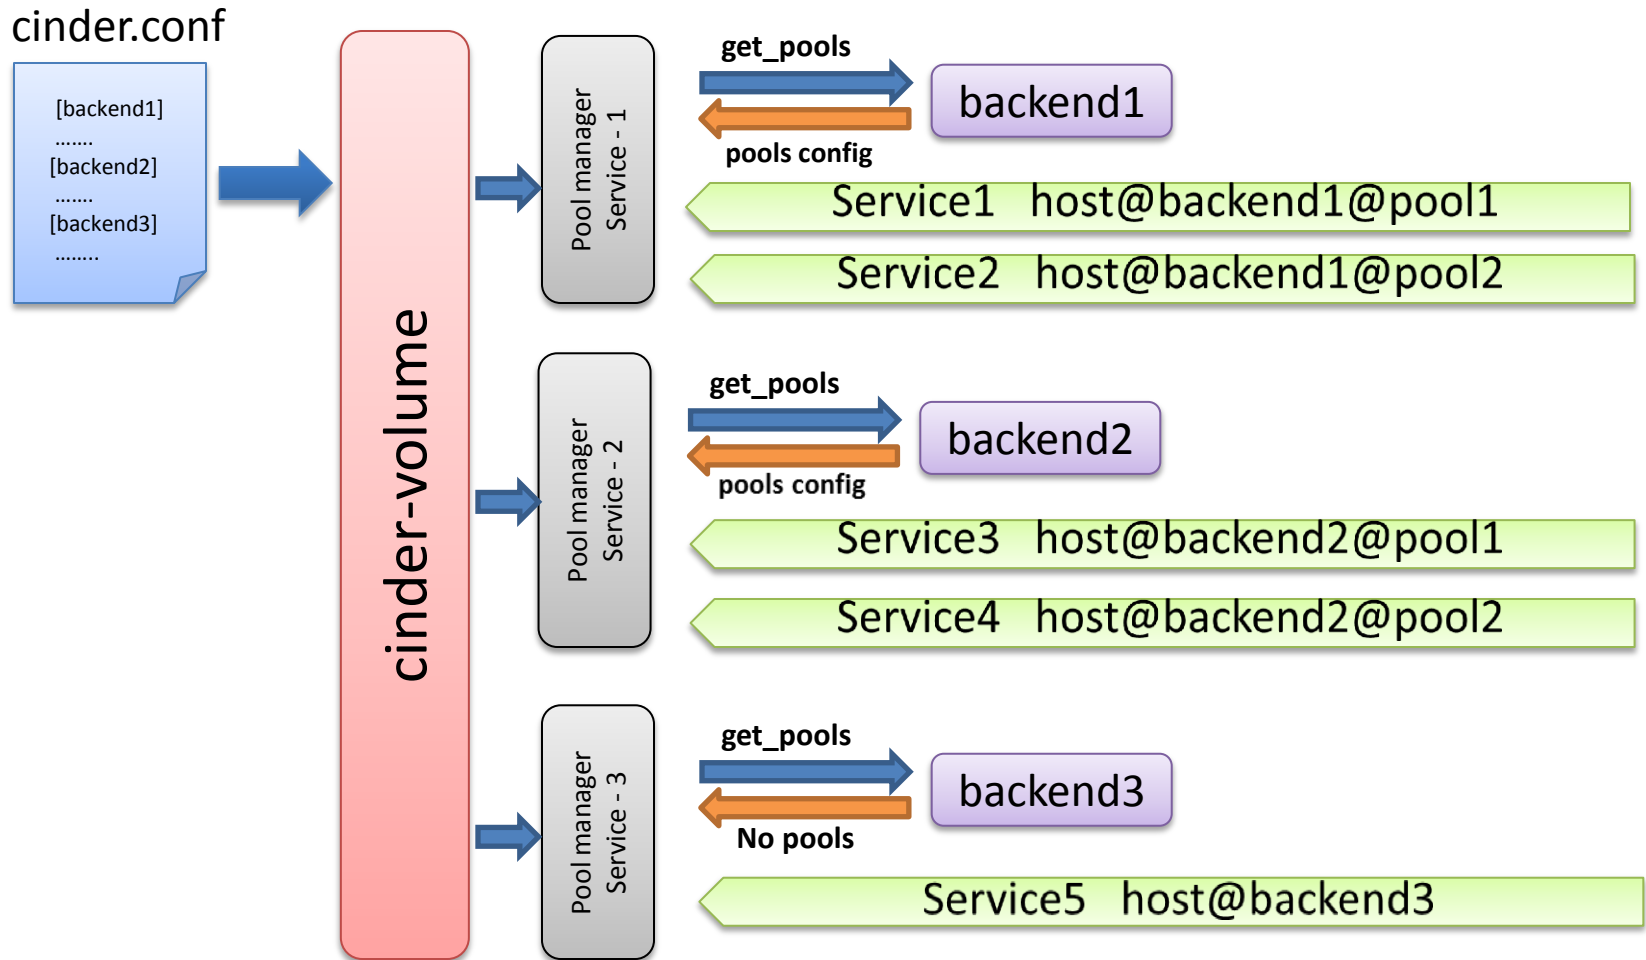

# Present architecture

cinder.conf

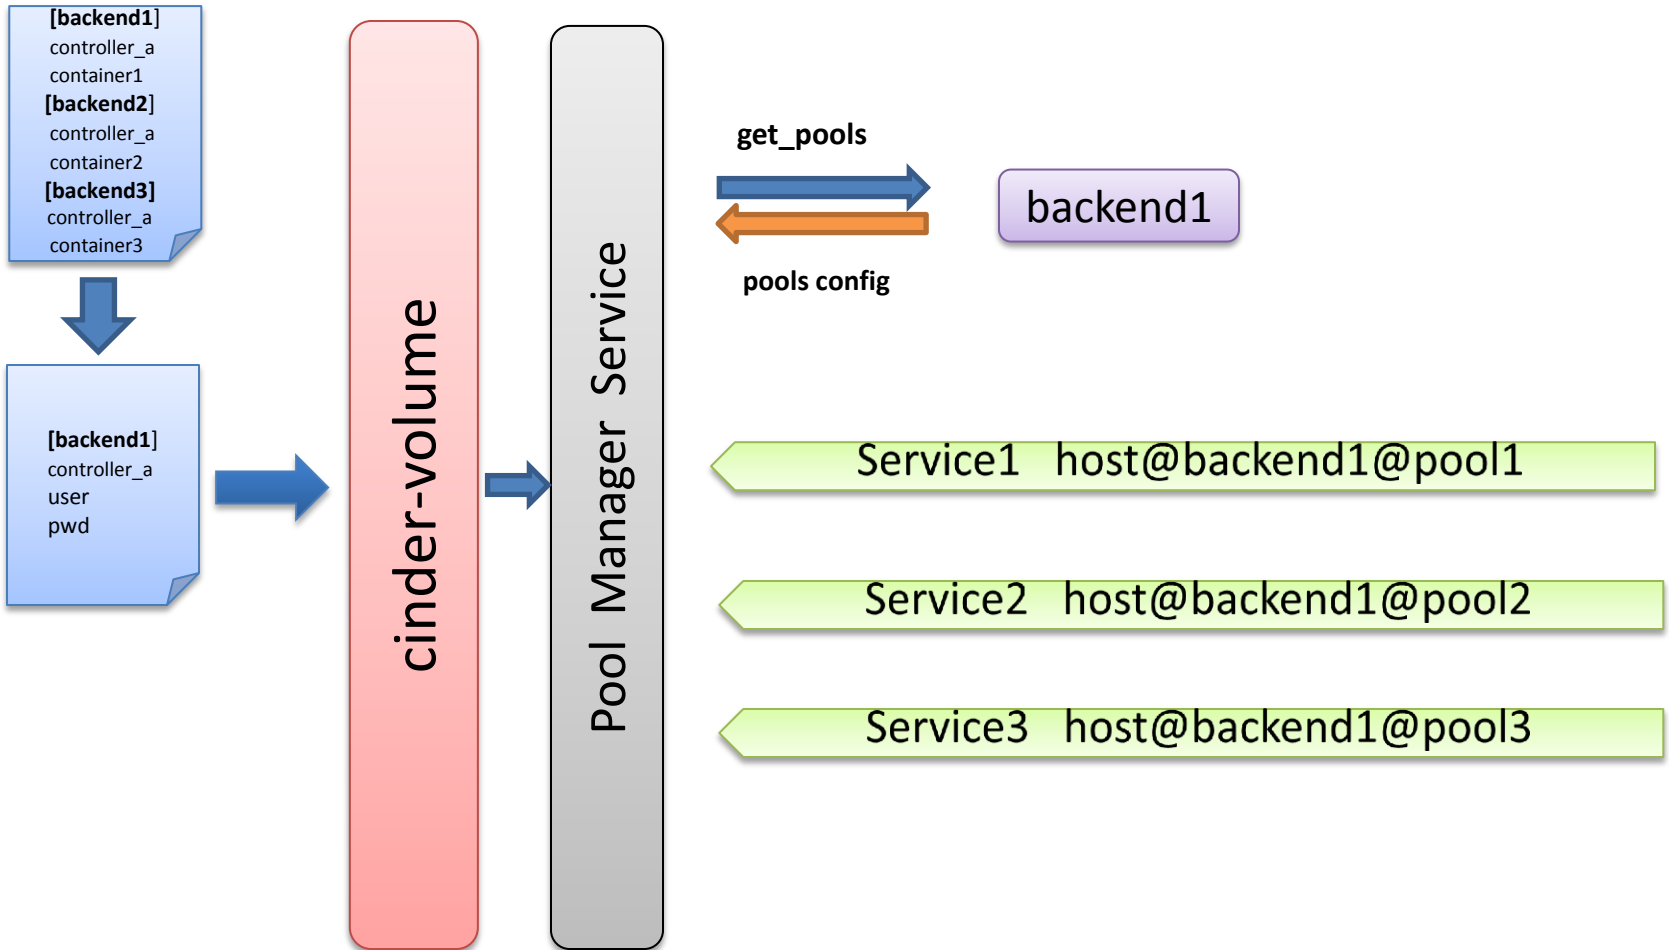

# Multi-pool architecture

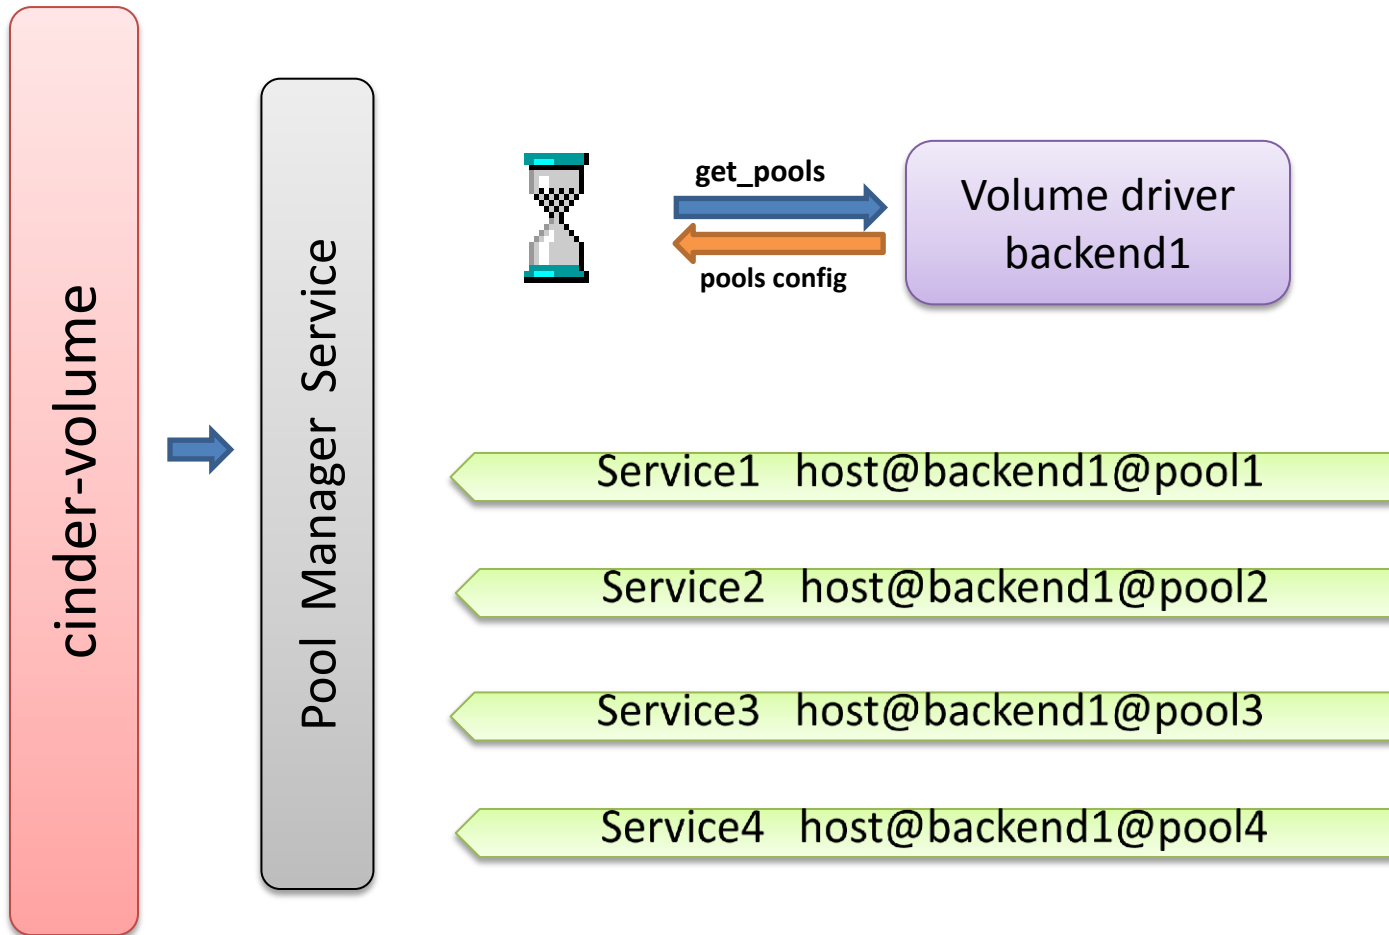

# Concise configuration

cinder.conf

# Dynamic multi-pool

# Pools config

```
{  
  'pool_name1':      {  
    'container': 'c1',  
    'param': 'value'  
  },  
  'pool_name2':      {  
    'container': 'c2',  
    'param': 'value'  
  },  
  .....  
}
```

# Upgrade multi-pool
